### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 12, 20 and 21, the closest prior art of record, Guillot (US 2002/0157182-A1) discloses a child's crib comprising a dropside assembly means 14, latching means 50, and corner means 17,18 (see Fig.1). Guillot discloses that the crib comprises concealed hardware for controlling the raising and lowering of the crib side wherein the crib configuration is capable of functioning to avoid the threat of having fingers pinched as the side is raised and lowered (see page 1, paragraph [0006]). However, Guillot fails to disclose corner legs comprising first and second vertical slide rods, whereby each corner leg is channeled to receive the vertical slide rod and each corner leg is also slotted to receive side rail means forming dropside means. Guillot further fails to disclose that the corner legs are channeled to receive latching means. Guillot's teachings fail to teach these limitations in combination with the other limitations recited by the applicant in claims 12, 20 and 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
